Version 001

About the Book

The purpose of this book is to give all guitar players a quick overview of all related topics in music theory such as intervals, scales, modes, arpeggios and many more. A good prerequisite for playing and arranging songs plus helping you becoming a better musician.

All samples are graphically edited. This form of presentation makes practicing and transposing into different keys more memorable creating a good understanding.

Good Luck!

About the Author

The Singer and Songwriter Alexander Harnisch alias John Scrivo, born in São Paulo, Brazil, enjoyed the feeling of Bossa Nova and the soccer euphoria at the beach of the Copacabana as a child.

For family reasons he grew up with two mother languages, Portuguese and English. After he had been given an electric guitar, he doggedly practiced the solos of his favourite Band "The Fab Four" - The Beatles. An interesting musical mixture was born now.

As his Austrian stepfather was a connoisseur of the Jazz Music, he heard the jazz tunes constantly at home. He was fascinated by the Big Bands, the Vocal Groups and last not least by Gypsy Jazz.

His guitar heroes like Django Reinhardt, Baden Powell, Yamandu Costa, Tommy Emmanuel, Frank Vignola, Martin Taylor, Joe Pass and many others became a part of his instrumental life as a guitar player.

7. Perpetual Emotions

Contents

06	The Circle of Fifths
07	The Intervals
07	How to determine an interval sequence
09	Four-Voice Chords stacked in Major 3rds
10	The Major Modes
18	Diatonic Scales - Warm Up Part 1
27	Diatonic Scales - Warm Up Part 2
30	A short analysis of the Lydian scale
31	A short analysis of the Locrian scale
32	Short and Uncomfortable
33	The Melodic Minor (Jazz Minor) Modes
42	Melodic Minor Applications Concept
54	The Harmonic Minor Modes
62	Wholetone, Wholetone-Halftone, Halftone-Wholetone
63	C-/G-Wholetone (WT)
63	G-Halftone Wholetone (HTWT)
64	G-Wholetone Halftone (WTHT)
65	The Diminished Scales
66	Four-Voice Chords stacked in Minor 3rds
67	Improvising over a V7(b9) chord
68	Diminished Scales over C7(b9)
69	Diminished Chords
70	Lonesome George
71	Family of 4 Dominants
72	The Blues Scales
73	The Minor Blues Scale
74	The Major Blues Scale
75	Blues Progression
76	Blues Progression in the Style of Joe Pass
77	Scales and their interval structures
78	The Pentatonic Scales
85	Improvising over Major 7th chords (Imaj7)
86	The John Coltrane pentatonic scale
87	The Bebop Scales
92	The harmonized C-Bebop Major Scale
93	You can count on me

Contents

94	The harmonized C-Bebop Natural Minor Scale
95	Romantic Love
96	The harmonized C-Bebop Dominant Scale
97	We Stumble Backwards
98	The harmonized C-Bebop Melodic Minor Scale
99	Cloudy Skies
100	Scales for improvising over Dominant 7th Chords
101	Major and Minor 6th Diminished Scale
106	The smallest fraction
107	The Chromatic Scales
108	Chromatic Scale Applications
110	The Barry Harris Chromatic Scale
111	Arpeggios
127	In the Beginning
128	Superimposing Arpeggios
130	Arpeggios over Dominant chords
131	Inversions
133	Drop-2
134	Drop-3
135	The Secondary Dominants
138	B-Flat in Love
140	The Tritone Substitution
143	Turnaround
144	I-VI-II-V7 Turnaround
145	II-V7-I Turnaround
146	II-V7-I Turnaround with Tritone Substitutions
147	Minor II-V7-I

Contents

148	Modal Interchange
157	Backdoor Progression
159	Quartal Voicings
160	Four-Voice Chords stacked in 4ths
161	The Bb-Major Scale Modes in 4ths
165	The G-Melodic Minor Scale Modes in 4ths
169	The G-Harmonic Minor Scale Modes in 4ths

175	Comping
178	Counterpoint Study
186	Almost Windless
188	Negative Harmony
194	From Positive to Negative
195	Pedal Point - Pedal Note

The Circle of Fifths

In music theory, the circle of perfect fifths is a graphical illustration of the relationships between the keys. The outer circle shows the major keys, the inner circle the parallel minor keys (minor relatives), which have the same signs as the major keys. The perfect fifth is one spot clockwise starting from the root "C" that has no signs.
